5.56mm PISTOL & SMG

5.56mm CARBINE

AUSTRALIAN AUTOMATIC ARMS PTY. LTD.

A unique opportunity exists to purchase a complete set of plant and equipment for the manufacture of small arms.

The business is offered for sale following the Australian Government's prohibition on the manufacture of firearms in Australia.

Whilst manufacturing, the company produced military, police and civilian weapons at 100% capacity. These weapons were well received by the market and enquiries at the time of cessation of production indicate an opportunity to increase sales, particularly in the US.

This Company has been manufacturing firearms since 1985 and has sold weapons in the following countries:

U.S.A.	Pakistan
Germany	New Zealand
Switzerland	United Kingdom
Holland	Australia

Other countries have inquired about our weapons but the Australian Export Policy prohibited sales.

The weapons have been exhibited at Civilian and Military Law Enforcement Trade Shows in a number of countries. Details are as follows:

1986	S.H.O.T. Show	Houston, Texas, U.S.A.
1987	S.H.O.T. Show	(Launching) New Orleans, U.S.A.
1988	S.H.O.T. Show	Las Vegas, U.S.A.
1989	S.H.O.T. Show	Dallas, Texas, U.S.A.
1991	S.H.O.T. Show	Dallas, Texas, U.S.A.
1989	Aidex	Canberra
1988	Defence Asia	Malaysia
1990	Milipol	Singapore
1991	Embassies:	Canberra
	Singapore	
	South Africa	
	India	
	Thailand	
	New Guinea	
	Canada	
	Malaysia	

Offered for sale is the tooling and equipment, used in the manufacture of both 9mm and 5.56mm pistols and carbines.
